FILE TRANSMITTAL MEMO TO STAN JORGENSEN, ATTN: ART GRÖNER
CAROL EIGHMEN, ATTN: JOE DAVIS

TO: STATE ENFORCEMENT STAFF

FROM: Betti Harris, EPA Mo. Coordinator

SUBJECT: Western Wire - St. Louis - MOD006277198

This company was changed to non-regulated status on April 13, 1983.

However, when it puts its pretreatment system in, the sludges now going to the municipal sewer will be retained on site. This will probably bring the company back into regulation under the State and RCRA systems.

I suggest you develop some sort of tickler file for recontacting these people some time in late 1984 when pretreatment is required.
